APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all prior rights and specifically conditions: subject to prior rights for irrigation purposes. It is understood that the 0.25 of a cubic foot of water per second herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. Accurate measurements of the water placed to a beneficial use must also be included in the proof of such use when filed. It is further understood that when no necessity for the use of water for mining purposes exists, the water of the spring is to be left to flow in the natural course of the stream and that failure to comply with the provisions of this permit will make same subject to immediate cancellation. The State reserves the right to regulate the use of the water herein granted at any and all times. The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second.

Actual construction work shall begin on or before May 1, 1938

Proof of commencement of work shall be filed before June 1, 1938
